

## The Aging Collection

---

MediaStorm

**The Aging Collection** features over 25 titles on the problems and the possibilities of aging in America. The films in **The Aging Collection** examine and help redefine how we look at the process of growing older. The films in this collection are optimistic, and always honest, never shying away from difficult subjects. Topics range from how older women view their changing physical features; elder artists; the challenges of long-term care; and the problem of financial exploitation and even physical abuse of older relatives. Several of the titles stretch our understanding of aging, and show that life as we grow older is full of exciting potential.

*Home For Life*, Kartemquin Films

**The Aging Collection** includes 21 films from **Terra Nova Films**, the only company in the world dedicated exclusively to the production, distribution, and presentation of films, videos and educational material on aging. The collection also includes the first film by renowned Chicago-based production company **Kartemquin Films**, *Home For Life*, a groundbreaking documentary on the experiences of two elderly people in their first month at a home for the aged. The collection includes **KimStim's** *Forget Me Not*, the award-winning documentary from filmmaker David Sieveking that portrays the domestic care of his mother Gretel, who, like millions of others, is suffering from Alzheimer's disease.
