Docuseek streams over 400 award-winning films for health, healthcare and medicine. Films address addiction and substance abuse, aging, death and dying, disabilities, economics of healthcare, environmental health, ethics, healthcare delivery, history of medicine, illness, disease and disorders, maternal and child health, psychology and mental health, public health, nursing, nutrition, sexuality, and more. Docuseek films examine health and healthcare in its social and historical context; essential resources for helping students to respond better to the challenges of today.
